Exhibitor Biographies 20-21
Congress Floor Plan 22-23
ISDE President

It gives me great pleasure to welcome you to the 15th World Congress of the ISDE in Singapore. During the two years since the very successful ISDE Vancouver Congress, interactions among the various specialties involved in our Society have dramatically increased. It is the best time to be involved in the ISDE with all of the initiatives that are now bringing together surgeons, gastroenterologists, pathologists, and oncologists who are interested in the esophagus.

Our annual meeting continues to grow with the most abstracts ever submitted. The fantastic program that has been assembled through the tireless efforts of Professor’s Ho and Van Lanschot promises one of the best ISDE Congresses ever.

This is an outstanding meeting with fantastic speakers and sessions. I hope you all will find it as useful and educational as our past Congresses. I look forward to seeing you at the sessions.
Welcome to Singapore!
In this dynamic environment East and West will meet to discuss major developments in the management of benign and malignant esophageal disorders and to present novel scientific insight in pathogenesis and etiology.

With all sophisticated diagnostic and therapeutic innovations there is a still growing need for multidisciplinarity. The 15th World Congress of the ISDE will focus on a high level of exchange and understanding between disciplines and continents.

The Japanese Esophageal Society (JES), the Chinese and European Chapters (CSDE and ESDE) as well as the International Network of Esophageal Atresia (INoEA) will actively participate and organize their own sessions. Various associated organizations, including ANZGOSA, APSDE, ASCVTS, ISES and MUGIS have been invited to have their scientific input as well.

Moreover, we are pleased to welcome a large representation from the Chinese Society for Diseases of the Esophagus (CSDE) which has recently been formally founded and officially affiliated to the ISDE.

The Congress will provide the ideal forum to stimulate ideas and to establish collaborations.
Not A Member Yet?

9 Good Reasons for Becoming a Member of ISDE Today

- Being part of the esophageal community
- Accessing educational content in our video library
- Becoming a member of ISDE standing committees
- Networking within the ISDE world
- Free access to ISDE webinar series
- Free electronic subscription to the society journal “Diseases of the Esophagus”
- Regular literature updates
- Reduced registration fees to the biennial world congress of the ISDE
- Getting involved in ISDE activities

We would love to hear from you!

ADVANCING THE ART OF ENDOSCOPY

As the world leader in endoscopy, OLYMPUS provides cutting edge medical technology to healthcare professionals around the globe.

Our latest introduction, EVIS EXERA III endoscopy system, is setting the new standards in visualization and control. These innovative technologies help to facilitate more accurate diagnosis and treatment, simplify setup and reprocessing with advanced levels of sophistication and integration.
Abstract Book
All accepted and confirmed abstracts are available online at www.isde.net, in the Wiley Online Library and the mobile application.

Badges
Your personalized badge is your admission card to the congress. For organizational and security reasons, badges have to be worn at the congress venue at all times. A lanyard will be given to you with the congress bag. Identity checks in the congress centre may occur at any time. In case of loss, a replacement badge will be provided for an administrative charge of USD $50.00.

Cameras And Cell Phones
No cameras or video cameras are allowed in any event during ISDE 2016. As a courtesy to fellow delegates, please turn off cell phones during scientific sessions.

Certificate Of Attendance
To complete the session evaluation and obtain credits for your attendance at ISDE 2016, please complete the online evaluation system which will be emailed to you on the last day of the conference.

Charging Stations
Charging Stations will be available in the Exhibit Area (Level 2 Foyer) to allow you to take a break while powering your mobile devices.

CME Credit Allowance
The ISDE is accredited by the European Accreditation Council for Continuing Medical Education (EACCME) to provide the following CME activity for medical specialists. The EACCME is an institution of the European Union of Medical Specialists (UEMS), www.uems.net.

The ISDE 2016 – 15th World Congress of the ISDE – is designated for a maximum of 15 hours of European external CME credits. Each medical specialist should claim only those hours of credit that he/she actually spent in the educational activity. Through an agreement between the European Union of Medical Specialists and the American Medical Association, physicians may convert EACCME credits to an equivalent number of AMA PRA Category 1 Credits™. Information on the process of converting EACCME credits to AMA credits can be found at www.ama-ssn.org/go/internationalcme. Live educational activities, occurring
outside of Canada, recognised by the UEMS-EACCME for ECMEC credits are deemed to be Accredited Group Learning Activities (Section 1) as defined by the Maintenance of Certification Program of The Royal College of Physicians and Surgeons of Canada.

Coffee Breaks
The coffee break areas will be located on Level 2 in the Exhibition & Poster Area.

Monday, September 19
10:00-10:30  15:30-16:00
Tuesday, September 20
10:00-10:30  15:30-16:30
Wednesday, September 21
10:00-10:30

Disclaimer
ISDE cannot accept any liability for the acts of the suppliers to this meeting or the attendees' safety while travelling to or from the congress. All participants are strongly advised to carry adequate travel and health insurance, as ISDE cannot accept liability for accidents or injuries that may occur.

Disclosures
For financial disclosures and conflict of interest statements please refer to www.isde.net.

Internet
A free wireless service is available to all delegates throughout the congress centre. Please proceed to the registration desk for further information.

Onsite Mobile Application
Plan your personalized ISDE 2016 schedule. Browse sessions by track, date, and time. The mobile application includes all abstracts submitted and accepted for the ISDE 2016 Congress. Sync with your Outlook calendar and many more. Available for iPhone, iPad, Android.

Poster Sessions
The Poster Sessions will be held in the Exhibit Area. For detailed information on Posters displayed please refer to the Mobile App.

Registration Counter Hours
ISDE 2016 Registration is located on Level 2 at the MAX Atria @ Singapore EXPO

Sunday, September 18
16:30-19:30

Supported by

**Held in**

Singapore Exhibition & Convention Bureau

www.isde.net 19
**EXHIBITOR BIOGRAPHIES**

**Cook Medical** | Booth #5  
www.cookmedical.com  
For over 30 years, Cook Medical’s Endoscopy division has pioneered minimally invasive devices in the field of GI endoscopy. Collaborating with clinicians, Cook ensures that its products are outcome focused. Today, Cook is a full-line supplier, participating in all global markets, integrating device design, biopharma, gene and cell therapy and biotech.

**Crospon** | Booth #7  
www.crospon.com  
Crospon’s EndoFLIP® system provides measurements of diameter and compliance within the esophagus and stomach to assist in assessment and surgical management of functional GI disorders. The EsoFLIP® dilation catheter incorporates the EndoFLIP® technology.

**CSDE** | Booth #TT2  
www.csde.info  
The Chinese Society for Diseases of the Esophagus (CSDE) was founded in September 2015 and represents a combined initiative amongst surgeons, physicians, pathologists and scientists to study esophageal diseases. It aims to improve the quality of healthcare service and clinical study in China, and boost international academic exchange and collaboration.

**ERBE** | Booth #4  
www.erbe-med.com  
Erbe Elektromedizin GmbH was founded in 1851 in Tuebingen, Germany. This family business develops, manufactures and markets systems for electrosurgery, thermofusion, plasmasurgery, cryosurgery and hydrosurgery. Erbe is considered a pioneer in electrosurgery, a technology that utilizes high-frequency currents in order to cut, coagulate or devitalize tissue, or to seal vessels.

**Fujifilm** | Booth #8  
www.fujifilm.com.sg  
FUJIFILM supplies products that target not only the early detection and treatment of diseases such as cancer but also the reduction of the physical burden on patient. Such products include LASEREO endoscope system equipped with laser light source, transnasal endoscopes that place less physical burden on patient, and double-balloon endoscopes.

**ISDE** | Booth #TT1  
www.isde.net  
ISDE is an international, multispecialty society devoted to the study of the esophagus. ISDE aims to promote the exchange of scientific and medical knowledge among specialists in the field. ISDE promotes professional and educational development by sponsoring its own journal, international congresses and educational programs.
EXHIBITOR BIOGRAPHIES

Johnson & Johnson | Booth #9
www.jnj.com
Caring for the world, one person at a time. Your family’s health and well-being is our passion. That’s why our companies offer the world’s broadest range of health care products, spanning across consumer, pharmaceutical and medical device sectors. Whatever your family’s health care needs, the Johnson & Johnson Family of Companies is at your side.

Karl Storz Endoscopy | Booth #3
www.karlstorz.com
Since its beginnings in 1945, KARL STORZ Endoskope (Germany) has grown into a global manufacturer of endoscopes, medical instruments, and devices. The range of endoscopic products for human medicine, veterinary medicine, and industrial endoscopy now includes more than 15,000 products. The most recent KARL STORZ developments are in digital documentation systems and comprehensive operating room concepts.

Medtronic | Booth #6
www.medtronic.com
As a global leader in medical technology, services and solutions, Medtronic improves the lives and health of millions of people each year. We use our deep clinical, therapeutic and economic expertise to address the complex challenges faced by healthcare systems today. Let’s take healthcare Further, Together.

Olympus | Booth #2
www.olympusmedical.com.sg
Olympus supports the work of healthcare professionals by providing advanced, minimally invasive therapeutic and diagnostic technologies to improve quality of patient care around the globe. While the providers of healthcare are our primary customers, we are always focused on patients, whose well-being is at the core of all we do.

Sandhill Scientific | Booth #1
www.sandhillsci.com
Sandhill Scientific, a Medovations Company, continues to be a leader in GI Diagnostic innovation. From our ZepHr® Impedance/pH System to our inSIGHT Ultima® Manometry Platform, powered by our all new Zvu® G.I. Diagnostic Software, Sandhill provides solutions. And all of our products are supported by Sandhill University, the most comprehensive training and education program in our market.
